

Carpenter – Construction Laborer

Location: Montréal – North Shore

Employment Type: Full-time

Start Date: Immediate

About Construction Praxis

At Construction Praxis, we act as a trusted general contractor, overseeing large-scale residential projects from design to delivery. We manage every step of the process with precision and rigor to ensure flawless execution and long-lasting value.

Our team of passionate professionals stands out for its ability to take on complex challenges and turn ambitious visions into concrete achievements.

Position Summary

As a Carpenter – Construction Laborer, you will be responsible for the day-to-day carpentry tasks on site, ensuring safety, quality, and compliance with project timelines. Reporting to the Site Superintendent, you will carry out carpentry work directly on the construction site, working closely with the construction team.

Main Responsibilities

- Perform accurate installation and assembly of wooden structures, frames, doors, windows, and other elements according to plans and specifications.
- Take precise measurements, make accurate cuts, and adjust materials to ensure proper fit.
- Collaborate effectively with other members of the construction team, including carpenters, joiners, and foremen.
- Comply with safety standards and site safety procedures to maintain a secure work environment.
- Manage materials, tools, and equipment efficiently to complete assigned tasks.
- Work closely with the superintendent to define site priorities.

Profile Sought

- Proven experience in carpentry, ideally on construction sites.
- Strong knowledge of carpentry techniques, materials, and tools.
- Ability to read and interpret plans and technical specifications.
- Proactive attitude, problem-solving ability, and adaptability to varied situations.

PRAXIS

Building projects efficiently with a focus
on innovation and expertise.

- Physical ability to perform demanding tasks on site.
- Strict adherence to workplace safety standards.

Conditions and Benefits

- Competitive salary based on experience
- Dynamic and collaborative work environment
- Growing company with a high project volume
- Cell phone allowance
